SUBJECT INDEX TO VOLUME 14

ABO blood groups and vitiligo, association: short communication, 211
ACD (angiokeratoma corporis diffusum), *see* Anderson-Fabry disease
Alpha$_1$-antitrypsin deficiency with M-like phenotype, 183
Amniotic fluid cell cultures, differentiation, I: Collagen production, 157, II: Secretion of an epithelial basement membrane glycoprotein, 163
Amylase polymorphism: correspondence, 293
Anaemia, sickle-cell, mild, associated with high levels of fetal haemoglobin, Iran, 168
Anderson-Fabry disease (angiokeratoma corporis diffusum), heterozygote detection, studies on plasma, leucocytes, and hair follicles, 91
Aneuploidy, nonconcordant sexual, in twins: case report, 226
ANNOTATIONS:
The incidence of hereditary disease in man, 305
Mendelian inheritance or transmissible agent—the lesson of Kuru and the Australia antigen, 389
Antigen, Australia, and Kuru, in relation to Mendelian inheritance: annotation, 389
H-Y, and the growth of dominant gonad, 335
Australia antigen and Kuru, in relation to Mendelian inheritance: annotation, 389
Autosomal dominant trigonocephaly: correspondence, 293
recessive hydrotic ectodermal dysplasia, 137
Marfan syndrome, probable, 359

Birth defects, Conference on clinical delineation Memphis, June 1977, 80
Blood groups, ABO, and vitiligo, association: short communication, 211
chimaerism, further example, case report, 279
Xg, and sex chromosome abnormalities in people of northern Europe ancestry: short communication, 210
Bloom's syndrome, endocrine abnormalities and myopathy, 418
Brachyphalangy, with mental retardation and characteristic facies, 'new' syndrome, 430

Cancer, childhood, and congenital malformations, 321
childhood, occurrence among sibs and estimation of familial risks, 81
Cebocephaly in an infant with trisomy 18: case report, 291
Chondroitinsulphaturias, genetic heterogeneity within, 103
Chromatid exchange, sister, in dyskeratosis congenita lymphocytes, 256
Chromatin, sex, and biological effects of triploidy: correspondence, 151
Chromosomes, abnormal, general
banding techniques, application to study of primary chromosome structural changes: annotation, 362
among livebirths, 309
frequency in miscarriages and perinatal deaths, 313
supernumerary small ring (46,XY/47,XY,+r): case report, 447
46,XX/47,XX extra ring, associated with leprechaunism: case report, 383
survey of total population of mentally subnormal in North-East Scotland: correspondence, 387
translocations, reciprocal, associated with microcephaly and retardation: case report, 141
twins with nonconcordant sexual aneuploidy: case report, 226
and Xg groups in people of northern Europe ancestry: short communication, 210
familial X-linked mental retardation with, 46
45,X/47,XYY mosaicism: case report, 218
X/XXX mosaicism, gonadal findings and prenatal diagnosis, 120
X/XYq– mosaicism and mixed gonadal dysgenesis, 262
47,XY,mat ?+: correspondence, 151
XYY, men, height and seriousness of crime, 10
Chromosome, group A
translocation between 2 and 13 (groups A and D), myotonic dystrophy and syringomelia in same family, 51
Chromosome, Group B
4p-syndrome, prenatal diagnosis: case report, 232
ring, 46,XY,ring(4)(p16q35): case report, 228
45 with translocation, causing mental retardation, 45,XX,–5,–14,+der(5)t(5,14)(p15:q13)mat: case report, 68
trisomy, 'complete 5p': 1 case and 19 translocation carriers in 6 generations, 271
Chromosome, Group C
deletion, interstitial, 9, girl with multiple congenital anomalies: case report, 455
partial long arm of 7: 46,XY,del(7)(q32): case report, 144
of 11 [del(11)(q23)], Jacobsen syndrome, 438
dicentric, stable, tdic(8:22)(p23:p13) in mental retardation: case report, 66
mosaicism presumably related to a Y/6 translocation, boy with multiple congenital abnormalities: case report, 378
pericentric inversions, 11, two, 371
ring, 8 (46,XY/46,XY,8r), with multiple congenital abnormalities and mental retardation: case report, 451
mosaicism, 46,XX,r(10)/45,XX,10–, physical retardation associated with: case report, 61
translocation, reciprocal, *de novo* balanced, 46,XY,t(6;8)(q13;q22): case report, 142

Chromosome, Group C—*cont.*
trisomy 7p, partial, with familial 7p;22q translocation, 258
partial, 8 (trisomy 8q2106→8qter): case report, 463
Chromosome, Group D
46,XX/47,XX,14 mosaicism in liveborn infant: case report, 214
dientric no. 15, with two satellite regions: case report, 381
ring mosaicism, 46,XX/46,r(15): case report, 63
partial trisomy 14q– and parental translocation of No. 14 chromosome, report of a case and review of the literature, 124
translocation 15/15 in Prader-Willi syndrome: short communication, 275
and G (13 and 22), partial trisomy with familial translocation, 114
Chromosome Group E
trisomy 18, in an infant with cebocephaly: case report, 291
Chromosome Group G
deletion short arms, and Down's syndrome: case report, 147
21 'mirror image': correspondence, 152
ring (21 and 22), 4 new cases, including familial transmission of ring 21, 54
20 syndrome: case report, 281
46,XY/47,XY,+22 trisomy: case report, 224
and D, partial trisomy with familial translocations, 114
partial trisomy 20 (20q13) and partial trisomy 21 (21pter→21q21.3): case report, 459
trisomy G21, in 3 sibs from mother with trisomy 21 mosaicism: case report, 286
Cleft palate associated with coloboma, hypospadias deafness, short stature, and radial synostosis: case report, 76
Collagen produced from amniotic fluid cell cultures, 157
Colour blindness, and Duchenne's muscular dystrophy, segregating in family: case report, 130
Colchester revisited, genetic study of mental defect, 1
Conference on Clinical Delineation of Birth Defects, Memphis, June 1977, 80
Congenital malformations and childhood neoplasms, 321
severe, lower limbs, associated with other deformities and death in infancy, two brothers, 352
CORRESPONDENCE
Amylase polymorphism, 293
Autosomal dominant trigonocephaly, 293
Chromosome survey of total population of mentally subnormal in North-East Scotland, 387
Extra chromosome in Kallmann's syndrome, 151
Heterogeneity among ectodermal dysplasia, 234
'Mirror image' chromosome No. 21, 152
Risk of closed lesions in sibs of cases of open neural tube defect, 295
Sex chromatin and the biological effects of triploidy, 151
Counselling, genetic, pedigree description and analysis, simple non-graphic method, 25
Crime, seriousness, and height of men with XYY chromosomes, 10
Cuba, description of family carrying haemoglobin Porto Alegre, 422

Ring chromosome, mosaicism, 46,XX,r(10)/45,XX,10–, physical retardation associated with: case reports, 61
46,XX/46,XX,r(15): case report, 63
supernumerary small, (46,XY/47,XY,+r): case report, 447
46,XX/47,XX extra ring, associated with leprechaunism: case report, 383
4,46,XY, ring(4)(pl6q35): case report, 228
8 (46,XY/46,XY,8r), with multiple congenital abnormalities and mental retardation: case report, 451
Ring-20 chromosome syndrome: case report, 281
21 and 22, four new cases, including familial transmission of ring 21, 54
Romany gypsies, genetic study, 172
Russell-Silver syndrome, crossed asymmetry: case report, 74
see also Silver-Russell

Sex linked hydrocephalus: case report, 72
Sickle-cell anaemia, mild, associated with high fetal haemoglobin levels, Iran, 168
Silver-Russell syndrome, reproductive ability of an adult female: case report, 134
see also Russell-Silver
Sperm, human, glucose-6-phosphate dehydrogenase activity, 250
Spina bifida, predisposition, search for relation to maternal gastric acid secretion, 332
Syndactyly, type I, problem of sex ratio, 108
Syringomelia, myotonic dystrophy, and 2/13 translocation in same family, 51

Testicular feminisation syndrome: unusual gonadal histology in elderly patient: case report, 375
Thalassaemia, $^{G}\gamma\delta\beta$, and $^{G}\gamma$ HPFH (Hb Kenya type), comparison of 2 new cases, 237
Translocation, balanced reciprocal, familial, causing mental retardation girl with 45,XX,–5, –14,+der(5)t(5,14)(p15:q13)mat: case report, 68
two, associated with microcephaly and retardation: case report, 141
de novo balanced, 46,XY,t(6;8)(q13;q22): case report, 142
carriers in 6 generation of 'complete 5p' trisomy, 271
between 2 and 13 (groups A & D), myotonic dystrophy and syringomelia in same family, 51
7p:22q, familial, associated with partial trisomy 7p, 258
15/15, in Prader-Willi syndrome: short communication, 275
G/G, t(21q21q) mosaicism in mother of firstly Down syndrome child, then t(21q21q) fetus: case report, 221
Y/6, mosaicism related to, boy with multiple congenital abnormalities: case report, 378
Trigonocephaly, autosomal dominant: correspondence, 293
Triploidy, and sex chromatin: correspondence, 151
Trisomy, 'complete 5p': 1 case and 19 translocation carriers in 6 generations, 271
partial, 7p, associated with familial 7p;22q translocation, 258
8 (trisomy 8q2106→8qter): case report, 463
13 and 22, with familial translocation, 114
14q– and parental translocation of No. 14 chromosome, report of case and review of the literature, 124
(20q13) and (21pter→21q21.3): case report, 45*)*
18 in infant with cebocephaly: case report, 291
21, in 3 sibs from mother with trisomy 21 mosaicism: case report, 286
22 mosaicism, 46,XY/47,XY,+22: case report 224
Tuareg Tribe, Haemoglobin D Ouled Rabah (β_{19}[B1] Asn→Lys), high frequency, 245
Twins, GM_1 gangliosidosis type 1: case report, 132
with nonconcordant sexual aneuploidy: case report, 226

Ureters and kidneys, bilateral absence, three cases in one family, 205

Vertical transmission, non-Mendelian inheritance resulting from, analysis of family history data, 399

'Whistling face' (Freeman-Sheldon's syndrome) recessive form: case report, 139

Xg groups and sex chromosome abnormalities in people of northern Europe ancestry: short communication, 210

CONTENTS

No. 1. *FEBRUARY* 1977

Colchester revisited: A genetic study of mental defect N. E. MORTON, D. C. RAO, HELEN LANG-BROWN, C. J. MACLEAN, R. D. BART, and RUTH LEW .. 1
Height and seriousness of crime in XYY men ERNEST B. HOOK and KRISTINE M. HEALY .. 10
Muscle nuclear changes in fetuses at risk for Duchenne muscular dystrophy DEMETRIS VASSILOPOULOS and ALAN E. H. EMERY .. 13
Immunoglobulin levels in dystrophia myotonica D. F. ROBERTS and W. G. BRADLEY .. 16
Heterozygote advantage for the phenylketonuria allele LETTEN FEGERSTEN SAUGSTAD .. 20
A simple non-graphic method for pedigree description and analysis TAMAR SCHAAP and MAIMON M. COHEN .. 25
Unusual occurrence of dextrocardia with situs inversus in succeeding generations of a family P. CHIB, D. N. GROVER, and B. N. SHAHI .. 30
Two cases of Ellis-van Creveld syndrome in a small island population R. D. HILL .. 33
Prenatal diagnosis: techniques used to help in ruling out maternal cell contamination D. C. PEAKMAN, MARILYN F. MORETON, and ARTHUR ROBINSON .. 37
A fluorescence polymorphism associated with Down's syndrome? JACQUELINE A. ROBINSON and MAJORIE NEWTON .. 40
Familial X-linked mental retardation with an X chromosome abnormality J. HARVEY, C. JUDGE, and S. WIENER .. 46
Myotonic dystrophy, syringomyelia, and 2/13 translocation in the same family RUTH BLAY LEVISKY, ANGELA M. VIANNA-MORGANTE, O. FROTA-PESSOA, M. SCAFF, ANA MARIA C. TSANACLIS, and J. A. LEVY 51
Four new cases of ring 21 and 22 including familial transmission of ring 21 C. G. PALMER, M. E. HODES, T. REED, and J. KOJETIN .. 54
Case reports:
Physical retardation associated with ring chromosome mosaicism: 46,XX,r(10)/45,XX,10– SUSAN LANSKY, W. DANIEL, and KATHY FLEISZAR .. 61
46,XX/46,XX,r(15) mosaicism. Report of a case R. A. PFEIFFER, R. DHADIAL, and W. LENZ .. 63
Stable dicentric autosome, tdic (8:22) (p23:p13), in a mentally retarded girl S. H. ROBERTS, R. T. HOWELL, K. M. LAURENCE, and M. E. HEATHCOTE .. 66
Mental retardation with 45 chromosomes 45,XX,–5,–14,+der(5)t(5,14)(p15;q13) mat due to familial balanced reciprocal translocation K. FRIED, M. TIEDER, S. BEER, M. ROSENBLATT, and H. I. KRESPIN .. 68
Sex linked hydrocephalus RALPH CASSIE and A. R. BOON .. 72
Crossed asymmetry in Russell-Silver syndrome Q. H. QAZI, E. G. KASSNER, and C. GANAPATHY .. 74
A new syndrome of cleft palate associated with coloboma, hypospadias, deafness, short stature, and radial synostosis MICHAEL A. ABRUZZO and ROBERT P. ERICKSON .. 76

No. 2. *APRIL* 1977

Occurrence of childhood cancers among sibs and estimation of familial risks G. J. DRAPER, M. M. HEAF, and L. M. KINNIER WILSON .. 81
Heterozygote detection in angiokeratoma corporis diffusum (Anderson-Fabry disease). Studies on plasma, leucocytes, and hair follicles M. W. SPENCE, A. L. GOLDBLOOM, J. K. BURGESS, DOREEN D'ENTREMONT, BEVERLY A. RIPLEY, and K. L. WELDON .. 91
Rapid prenatal diagnosis of the Lesch-Nyhan syndrome D. HALLEY and M. J. HEUKELS-DULLY .. 100
Genetic heterogeneity within the chondroitinsulphaturias B. SHANNON DANES, B. K. ROTTELL, L. EVIATAR, and J. STOLZENBERG .. 103
Problem of sex ratio in cases of type I syndactyly C. M. WOOLF and DIANA L. CONE .. 108
Familial translocation with partial trisomy of 13 and 22: evidence that specific regions of chromosomes 13 and 22 are responsible for the phenotype of each trisomy H. J. KIM, LILIAN Y. F. HSU, L. C. GOLDSMITH, LOTTE STRAUSS, and K. HIRSCHHORN .. 114
Prenatal diagnosis and gonadal findings in X/XXX mosaicism GERTRUDE KOHN, M. M. COHEN, Y. BEYTH, and A. ORNOY .. 120

Partial trisomy 14q– and parental translocation of No. 14 chromosome. Report of a case and review of the literature JANE SIMPSON and H. ZELLWEGER 124
Short communication:
Gonadal dysgenesis with Graves's disease W. H. BROOKS, J. C. MEEK, and R. N. SCHIMKE .. 128
Case reports:
Family in which Duchenne's muscular dystrophy and protan colour blindness are segregating D. N. H. GREIG 130
GM_1 gangliosidosis type 1 in twins C. M. GINSBURG and C. G. LONG 132
Reproductive ability of an adult female with Silver-Russell syndrome HELEN K. ABRAMOWICZ and H. M. NITOWSKY 134
Autosomal recessive hydrotic ectodermal dysplasia K. FRIED 137
Recessive form of Freeman-Sheldon's syndrome or 'whistling face' A. F. P. ALVES and E. S. AZEVEDO 139
Two reciprocal translocations associated with microcephaly and retardation E. F. BELL and DOROTHY WARBURTON 141
De novo balanced reciprocal translocation 46,XY,t(6;8)(q13;q22) K. FRIED, M. ROSENBLATT, and G. MUNDEL 142
A partial long arm deletion of chromosome 7: 46,XY,del(7)(q32) B. G. KOUSSEFF, LILLIAN Y. F. HSU, SOPHIE PACIUC, and K. HIRSCHHORN 144
Down's syndrome and deletion of short arms of a G chromosome G. H. BALLANTYNE, M. I. PARSLOW, A. M. O. VEALE, and D. H. H. PULLON 147
Correspondence 151
Book reviews 154

No. 3. *JUNE* 1977

Differentiation in human amniotic fluid cell cultures: I: Collagen production R. E. PRIEST, J. H. PRIEST, J. F. MOINUDDIN, and A. J. KEYSER 157
Differentiation in human amniotic fluid cell cultures: II: Secretion of an epithelial basement membrane glycoprotein J. M. MEGAW, J. H. PRIEST, R. E. PRIEST, and L. D. JOHNSON 163
Mild sickle-cell anaemia in Iran associated with high levels of fetal haemoglobin M. HAGHSHENASS, F. ISMAIL-BEIGI, J. B. CLEGG, and D. J. WEATHERALL 168
Genetic study of Welsh gypsies E. MAIR WILLIAMS and PETER S. HARPER 172
Genetic markers in Welsh gypsies PETER S. HARPER, E. MAIR WILLIAMS, and E. SUNDERLAND.. .. 177
$Alpha_1$-antitrypsin deficiency with M-like phenotype F. KUEPPERS, G. UTZ, and B. SIMON 183
Dermatoglyphs of Klinefelter's syndrome HIROSHI SHIONO, JUN-ICHI KADOWAKI, HITOSHI TANDA, and MASAHIRO HIKITA 187
Diabetes mellitus, diabetes insipidus, and optic atrophy. An autosomal recessive syndrome? F. C. FRASER and T. GUNN 190
Three sisters with gonadoblastoma B. IONESCU and C. MAXIMILIAN 194
Inheritance of Ehlers-Danlos type IV syndrome F. M. POPE, GEORGE R. MARTIN, and VICTOR A. MCKUSICK 200
Bilateral absence of the kidneys and ureters. Three cases reported in one family HERMINE M. PASHAYAN, THOMAS DOWD, and ANTHONY V. NIGRO 205
Short communications:
Xg groups and sex chromosome abnormalities in people of northern European ancestry: an addendum RUTH SANGER, PATRICIA TIPPETT, JUNE GAVIN, PHYLLIS TEESDALE, and G. L. DANIELS 210
Association of ABO blood groups and vitiligo L. KAREEMULLAH, SOGHRA GEBUM, V. TANEJA, P. K. M. SARMA, and H. A. BAIG 211
Case reports:
46,XX/47,XX,+14 mosaicism in liveborn infant ALICE O. MARTIN, MARY M. FORD, N. T. KHALIL, KAREN B. TURK, and M. N. MACINTYRE 214
45,X/47,XYY mosaicism MARIE T. MULCAHY, JOY JENKYN, and ALASDAIR MACKELLAR 218
Reproduction in woman with low percentage t(21q21q) mosaicism H. F. L. MARK, T. MENDOZA, D. ABUELO, L. J. BEAUREGARD, J. B. MAY, and P. H. LAMARCHE 221
Trisomy 22 mosaicism F. MOLLICA, G. SORGE, and L. PAVONE 224
Twins with nonconcordant sexual aneuploidy J. M. GARCÍA-SAGREDO, C. MERELLO-GODINO, and C. SAN ROMÁN 226
Ring chromosome 4 A. MCDERMOTT, K. A. VOYCE, and D. ROMAIN 228
Prenatal recognition of 4p-syndrome SUSAN BLUNT, A. CAROLINE BERRY, MARY J. SELLER, and CATHERINE A. VAUGHAN WILLIAMS 232
Correspondence 234
Book reviews 235

No. 4. *AUGUST* 1977

$^{G}\gamma\delta\beta$ thalassaemia and $^{G}\gamma$ HPFH (Hb Kenya type). Comparison of 2 new cases W. G. WOOD, J. B. CLEGG, D. J. WEATHERALL, O. H. B. GYDE, D. A. OBEID, M. J. TARLOW, M. J. BROWN, and S. HEWITT 237
Haemoglobin D Ouled Rabah (β19 [B1] Asn→Lys) in a Tuareg tribe of the Southern Sahara A. MAURAN-SENDRAIL, PH. LEFEVRE-WITIER, H. LEHMANN, and R. CASEY 245
Glucose-6-phosphate dehydrogenase (G6PD) activity of human sperm SIDDHARTHA SARKAR, ALVIN J. NELSON, and O. W. JONES 250
Sister chromatid exchange in dyskeratosis congenita lymphocytes WALTER BURGDORF, KAREN KURVINK, and JAROSLAV CERVENKA 256
Partial trisomy 7p associated with familial 7p;22q translocation LINDA M. LARSON, WALTER A. WASDAHL, and SYED M. JALAL 258
X/XYq-mosaicism and mixed gonadal dysgenesis EMILIO YUNIS, RAFAEL SILVA, EFRAIN RAMIREZ, and MARCO A. NOSSA 262
The prune belly anomaly. Heterogeneity and superficial X-linkage mimicry VINCENT M. RICCARDI and CYRIL M. GRUM 266
'Complete 5p' trisomy: 1 case and 19 translocation carriers in 6 generations F. S. W. BRIMBLECOMBE, F. J. LEWIS, and M. VOWLES 271
Short communications:
15/15 translocation in Prader-Willi syndrome M. FRACCARO, ORSETTA ZUFFARDI, ERICA M. BÜHLER, and L. PIA JURIK 275
Echinocytes in families with Duchenne muscular dystrophy H. C. SOLTAN 276
Case reports:
A further example of human blood group chimaerism I. O. SZYMANSKI, C. A. TILLEY, M. C. CROOKSTON, T. J. GREENWALT, and S. MOORE 279
The r(20) syndrome RIITTA HERVA, IRJA SAARINEN, and LEENA LEIKKONEN 281
Congenital discoid lupus in the newborn J. S. FITZSIMMONS, M. J. CRAWFORD, and W. G. REEVES 283
Regular G21-trisomy in 3 sibs from mother with trisomy 21 mosaicism A. OSUNA and A. MORENO 286
Trisomy 22 with 'cat eye' anomaly J. CERVENKA, CHERYL A. HANSEN, R. A. FRANCIOSI, and R. J. GORLIN 288
Cebocephaly in an infant with trisomy 18 ALASDAIR G. W. HUNTER, MANORANJAN RAY, and CLAIRE LANGSTON 291
Correspondence 293
Book reviews 297
Announcements 304

No. 5. *OCTOBER* 1977

Annotation: The incidence of hereditary disease in man PATRICIA ASH, J. VENNART, and C. O. CARTER 305
Radiological protection and assessment of genetic risk A. G. SEARLE 307
Chromosome anomalies among livebirths H. J. EVANS 309
Frequency of chromosomal abnormalities in miscarriages and perinatal deaths EVA D. ALBERMAN M. R. CREASY 313
Monogenic disorders C. O. CARTER 316
Congenital malformations and childhood neoplasms IAN LECK 321
The major psychoses J. SHIELDS 327
Ischaemic heart disease G. ROSE 330
Predisposition to spina bifida. Search for a relation to maternal gastric acid secretion PENELOPE A. STANWAY, I. M. SAMLOFF, CATHERINE J. BRACE, and J. H. RENWICK 332
H-Y antigen and the growth of the dominant gonad URSULA MITTWOCH 335
Lead levels in human placentae from normal and malformed births D. G. WIBBERLEY, A. K. KHERA, J. H. EDWARDS, and D. I. RUSHTON 339
Variant of iduronidase deficient mucopolysaccharidoses. Further evidence for genetic heterogeneity B. SHANNON DANES 346
Severe lower limb malformation associated with other deformities and death in infancy in two brothers K. FRIED, M. D. GOLDBERG, G. MUNDEL, and R. REIF 352
Maxillofacial dysostosis V. ESCOBAR, J. EASTMAN, D. WEAVER and M. MELNICK 355
Probable autosomal recessive Marfan syndrome K. FRIED and D. KRAKOWSKY 359
Annotation: Application of chromosome banding techniques to the study of primary chromosome structural changes JOHN R. K. SAVAGE 362
Two pericentric inversions of human chromosome 11 K. SIMOLA, P. KARLI, and A. DE LA CHAPELLE 371
Case reports:
Testicular feminisation syndrome: unusual gonadal histology in an elderly patient J. CHEMKE, A. SHANI, M. LANCET, and B. CZERNOBILSKY 375

Mosaicism presumably related to a Y/6 translocation in a boy with multiple congenital abnormalities L. WISNIEWSKI and J. V. HIGGINS 378
A dicentric no. 15 chromosome with two satellite regions E. JANET WATSON and JOHN B. SCRIMGEOUR 381
Leprechaunism with mosaicism 46,XX/47,XX extra ring chromosome V. VENTRUTO, L. SEBASTIO, G. SEBASTIO, R. V. DE MASI, U. VOTA, L. FARINA, and B. FESTA 383
Correspondence 387

No. 6. *DECEMBER* 1977

Annotation: Mendelian inheritance or transmissible agent?—the lesson of Kuru and the Australia antigen PETER S. HARPER 389
Analysis of family history data for evidence of non-Mendelian inheritance resulting from vertical transmission PAUL E. M. FINE 399
Recurrence risks in complex inheritance with special regard to pyloric stenosis J. M. LALOUEL, N. E. MORTON, C. J. MACLEAN, and J. JACKSON 408
Genetics of Möbius syndrome M. BARAITSER 415
Endocrine abnormalities and myopathy in Bloom's syndrome U. AHMAD, E. R. FISHER, T. S. DANOWSKI, S. NOLAN, and T. STEPHAN 418
Haemoglobin Porto Alegre in a Cuban family G. MARTÍNEZ, F. LIMA, M. WADE, M. ESTRADA, B. COLOMBO, L. HEREDERO, and H. GRANDA 422
Congenital, hypotonic-sclerotic muscular dystrophy TETSUO FURUKAWA and YASUO TOYOKURA .. 426
A 'new' syndrome of mental retardation with characteristic facies and brachyphalangy ALASDAIR G. W. HUNTER, PHYLLIS J. MCALPINE, NOREEN L. RUDD, and F. CLARKE FRASER 430
Partial deletion of long arm of chromosome 11[del(11)(q23)]: Jacobsen syndrome. Two new cases and review of the clinical findings A. SCHINZEL, P. AUF DER MAUR, and H. MOSER 438
Case reports:
Hunter syndrome presenting as macrocephaly and hydrocephalus SHAUL YATZIV and CHARLES J. EPSTEIN 445
Supernumerary small ring chromosome S. KAFFE, H. J. KIM, L. Y. F. HSU, C. B. BRILL, and K. HIRSCHHORN 447
Ring chromosome 8 in a boy with multiple congenital abnormalities and mental retardation A. J. H. HAMERS and C. A. VAN KEMPEN 451
An interstitial deletion of chromosome 9 in a girl with multiple congenital anomalies LAWRENCE WISNIEWSKI, GERALD PURDY, TERRY HASSOLD, CAROLA WILSON, KAREN BENTLEY, EMANUEL HACKEL, and JAMES V. HIGGINS 455
Partial trisomy 20(20q13) and partial trisomy 21(21pter→21q21.3) OTTO SÁNCHEZ, PETER MAMUNES, and JORGE J. YUNIS 459
Partial trisomy 8 (trisomy 8q2106→8qter) DIANNE ABUELO, DANIEL L. PERL, CAROL HENKLE, and ANNE RICHARDSON 463
Absence of distal interphalangeal fold causing difficulty in extending fingers D. LAMBERT, A. NIVELON-CHEVALLIER, and J. L. CHAPUIS 466
Announcements 468
Index 469
